Sue Manns /
Chris Calvert

The adequacy of public consultation has become a highly challengeable aspect of the planning process. Those objecting to sensitive or controversial schemes or seeking to delay them will often exploit the consultation process.

The team offer advice and guidance on public consultation and engagement, to help ensure that both clients and those with whom they are engaging get the best outcomes from the process. Our specialists will draw on their understanding of the legislation and case law, guidance, good practice and extensive experience, in order to assemble a bespoke approach which responds to the uniqueness of each project and each community. They will support this with suggestions for appropriate tools and techniques which can be used to support delivery.

DESIGN

- Exhibition Boards and Support
- Leaflet Design
